CONTRIBUTIONS TO SPATIAL ECONOMETRICS

INTRODUCTION:

- 5 Mayor, M., and Fernández, E.
Contributions to spatial econometrics: non-linearity, causality and empirical applications

ON THEORY AND METHODS:

- 11 Paelinck, J. H. P.
On Some Analytical Statistics for Geographic Patterns: From Non-linearity to Linearity
- 19 López-Hernández, F.; Artal-Tur, A., and Mate-Sánchez-Val, M.
Identifying nonlinear spatial dependence patterns by using non-parametric tests: Evidence for the European Union
- 37 Angulo, A., and Mur, J.
The Likelihood Ratio Test of Common Factors under Non-Ideal Conditions
- 53 Fernández, E.
Updating weighting matrices by Cross-Entropy
- 71 Burrridge, P.
A research agenda on general-to-specific spatial model search

EMPIRICAL CONTRIBUTIONS:

- 93 Mitze, T.
Within and Between Panel Cointegration in the German Regional Output-Trade-FDI Nexus
- 119 Suárez, P.; Mayor, M., and Cueto, B.
How important is access to employment offices in Spain? An urban and non-urban perspective
- 141 Ribeiro, A., and Silva, J.
A spatial analysis on the relation between accessibility and spatial development for Cross-border regions
- 157 Montero, J. M.; Fernández-Avilés, G., and Mínguez, R.
Spatial Hedonic Pricing Models for Testing the Adequacy of Acoustic Areas in Madrid, Spain
- 183 Aliaga, J.; Herrera, M.; Leguía, D.; Mur, J.; Ruiz, M., and Villegas, H.
Spatial Causality. An application to the Deforestation Process in Bolivia
- 199 Márquez, M. A.; Ramajo, J., and Hewings, G. J. D.
Public Capital and Regional Economic Growth: a SVAR Approach for the Spanish Regions
- 225 Angulo, A. M.; Mtimet, N.; Dhehibi, B.; Atwi, M.; Ben Youssef, O.; Gil, J. M., and Sai, M. B.
A revisited gravity equation in trade flow analysis: an application to the case of Tunisian olive oil exports
